MAR 20 2013

The Honorable Franklin Cownie
Mayor, City of Des Moines
400 Robert D. Ray Drive
Des Moines, IA 50309

Dear Mayor Cownie:

I am writing to inform you of some corrections to the population counts for your jurisdiction. These changes resulted from reviews the Census Bureau initiated as part of our 2010 Census Count Question Resolution (CQR) Program. These revised counts are official Census Bureau figures that can be used for most purposes for which 2010 Census figures are used.

As background to the CQR Program, for the 2010 Census, our goal was to count everyone once, only once, and in the right place, and all the quality measures that we have examined indicate that we conducted a very good census. Historically, there have been a small percentage of cases where an incorrect geographic boundary or geocoding of a housing unit or group quarters was used to produce the official census population, housing unit, and group quarters count for a local area. On the assumption some of these errors might have happened for the 2010 Census, we established the CQR Program that allows local officials to challenge their 2010 Census counts of housing units and group quarters. Complete information about the CQR Program is available on our Web site at <http://www.census.gov/2010census/about/cqr>.

Although you may have filed a challenge for your jurisdiction, the CQR Program also includes a process for Census Bureau staff to conduct a systematic national level review.

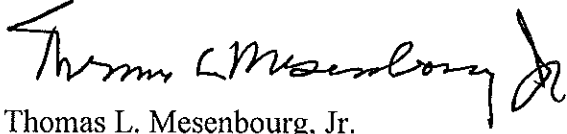

As a result of this research, we found errors in the geographic placement of housing units/group quarters related to the City of Des Moines, Iowa. The updated census tract and block counts will be available at www.census.gov/prod/cen2010/notes/errata.pdf and will soon be posted to <http://factfinder2.census.gov>.

Enclosed is the official statement from the U.S. Census Bureau describing the corrected population counts for the City of Des Moines. The CQR case that resulted in this change is **Case Number 90665**.

Additionally, the Census Bureau will send you a map that shows the corrected jurisdictional boundary based on the results of this CQR case. We will deliver it to you in approximately one week from the receipt of this letter. The City of Norwalk, Iowa will also receive a copy of the corrected map based on these results. The map will soon be available at <http://www.census.gov/2010census/about/cqr>; follow the link to the 2010 Census CQR Corrected Maps.

If there are questions or concerns regarding the 2010 Census count for the City of Des Moines, please contact the CQR Program Office at 301-763-9329.

Sincerely,
