

Voter Registration Signed POA

Date:

Dear

We received your voter registration application; however, our office cannot process the application because it was signed by someone with power of attorney. Under Iowa law, someone who has power of attorney does not have the right to register another person to vote.

Enclosed is a new voter registration form. If you need assistance in signing your name, you may use a rubber stamp reproduction of your signature. You may also request help from someone in signing your name on the request form.

Please return your voter registration application to the auditor's office at:

- There are no elections scheduled for the next 60 days.
- The pre-registration deadline for the upcoming election on ____/____/____ is 5 p.m. on ____/____/____.

If you receive this notice after the deadline to pre-register to vote in the election listed above, you may use election day registration procedures at your polling place on election day or when casting an absentee ballot at the county auditor's office. To register, bring your Iowa ID with your current name and address on it.

If you have any questions about other acceptable forms of ID for election day registration, the location of your polling place, or absentee voting at the auditor's office, please call my office at

Sincerely,

County Auditor and Commissioner of Elections
